Dear Mr. Piekiet:

This responds to your letter of October 13, 1995 requesting specific information regarding a so-called health department "order" mandating the dress code exemplified by the "shirt and shoes required" signs posted by some stores in their respective places of business, which prompted your request.

This Department has not issued any order mandating such dress code and we are not aware of any such order having been issued by any local health department having jurisdiction.

Sincerely,

Frank J. DeCotis
Associate Attorney
